# Bride and Tailors

Brides & Tailor's business concept came into life when its founder - Manal had such a hard time finding the perfect wedding dress. Like other brides, it was almost impossible to find a dress that combined all different aspects she was looking for despite hopping from one boutique into another. The prices were also very shocking so to have a gown custom made at a decent price was almost impossible at that time.

**Technology:** Wordpress ,  
Woocommerce

**Website link:**  
<https://bridesandtailor.com/>

The screenshot shows the homepage of the Brides & Tailor website. At the top, there is a navigation bar with links for Sales, Search, and My Account. The main header features the brand logo 'Brides & Tailor' with a silhouette of a bride and groom. Below the header, there is a large search bar and a secondary navigation bar with links for Home, Shop, Send Us Your Own Design, Reviews, FAQ, About Us, and Contact Us. The main content area features a large image of a couple in formal attire. A yellow circle highlights a specific area on the woman's dress. To the right, there is a sidebar with the text '2025 BRIDES & TAILOR' and 'Any Style, Any Color, Any size. We create the dress the way you want it.' Below this, there is a section for 'Check our collection or Design your own custom wedding dress!' with a photo credit to Lauren Health Photography and a 'VIEW COLLECTION' button.
